

§ 15.525

(b) The OCMI determines the minimum number of licensed individuals and crew (including lifeboatmen) required for the safe operation of inspected MODUs. In addition to other factors listed in this part, the specialized nature of the MODU is considered in determining the specific manning levels.

(c) A license as offshore installation manager (OIM), barge supervisor (BS), or ballast control operator (BCO) authorizes service only on MODUs. A license or endorsement as OIM is restricted to the MODU type and mode of operation specified on the license.

(d) A self-propelled MODU other than a drillship must be under the command of an individual who holds a license as master endorsed as OIM.

(e) A drillship must be under the command of an individual who holds a license as master. When a drillship is on location, the individual in command must hold a license as master endorsed as OIM.

(f) A non-self-propelled MODU must be under the command of an individual who holds a license or endorsement as OIM.

(g) An individual serving as mate on a self-propelled surface unit other than a drillship must hold an appropriate license as mate and an endorsement as BS or BCO. An individual holding a license or endorsement as barge supervisor or ballast control operator may be substituted for a required mate when a self-propelled surface unit other than a drillship is on location or under tow, under certain circumstances as determined by the cognizant OCMI.

(h) An individual holding a license or endorsement as barge supervisor is required on a non-self-propelled surface unit other than a drillship.

(i) An individual holding a license or endorsement as barge supervisor may serve as ballast control operator.

(j) The OCMI issuing the MODU's certificate of inspection may authorize the substitution of chief or assistant engineer (MODU) for chief or assistant engineer, respectively, on self-propelled or propulsion assisted surface units, except drillships. The OCMI may also authorize the substitution of assistant engineer (MODU) for assistant engineer on drillships.

46 CFR Ch. I (10–1–06 Edition)

(k) Requirements in this part concerning radar observers do not apply to non-self-propelled MODUs.

(l) A surface mobile offshore drilling unit underway or on location, when afloat and equipped with a ballast control room, must have that ballast control room manned by an individual holding a license or endorsement authorizing service as ballast control operator.

[CGD 81–059a, 55 FR 14805, Apr. 18, 1990]

§ 15.525 Reference to other parts.

Parts 31 and 35 of this chapter contain additional manning requirements applicable to tank vessels.

Subpart E—Manning Requirements; Uninspected Vessels

§ 15.601 General.

The following sections of subparts F, G, and H of this part contain provisions concerning manning of uninspected vessels; §§ 15.701, 15.705, 15.710, 15.720, 15.730, 15.801, 15.805, 15.810, 15.820, 15.825, 15.840, 15.850, 15.855, 15.905, 15.910, and 15.915.

§ 15.605 Licensed operators for uninspected passenger vessels.

Each uninspected passenger vessel must be under the direction and control of an individual licensed by the Coast Guard as follows:

(a) Every self-propelled, uninspected vessel as defined by 46 U.S.C. 2101(42)(B), carrying not more than six passengers, must be under the direction and control of an individual holding a license as operator.

(b) Every uninspected passenger vessel of 100 gross tons or more, as defined by 46 U.S.C. 2101(42)(A), must be under the direction and control of a licensed master, pilot, or mate as appropriate.

[USCG-1999-5040, 67 FR 34767, May 15, 2002]

§ 15.610 Master and mate (pilot) of towing vessels.

(a) Except as provided in this paragraph, every towing vessel of at least 8 meters (at least 26 feet) in length, measured from end to end over the deck (excluding sheer), must be under the direction and control of a person licensed as master or mate (pilot) of
